

Who Should Attend

This course is suitable for Physicians, Infection Preventionists, Nurses, Managers, Directors of Nursing, Administrators and Anesthesiologists.

Learning Outcomes: Participants attending this one-day seminar will be able to...

1. Describe infection prevention breaches that have been identified as the cause of HAI outbreaks associated with ambulatory care/outpatient facilities.
2. Identify activities required to perform surveillance to identify and report outbreaks.
3. Identify the significant changes related to sterile processing that were published in 2017.
4. Discuss the guidelines that impact high level disinfection of endoscopes.
5. Discuss and implement the components of a successful housekeeping program.
6. Explain new CMS rules for Emergency Management and how they are currently being interpreted during surveys.
7. Define regulatory requirements and identify ICRA responsibilities.
8. Discuss the changes to the HIPAC-CDC Guidelines for SSI and how they are used with existing guidelines.
